EMAIL: sales@americanplatingpower.comWEBSITE: www.americanplatingpower.comCONTACT: STEVEN SMITH

American Plating Power has the most extensive range of SCR and switchmode rectifiers available in the industry. Styles include bench top, wall mount, floor mount, multi circuit cabinets, straight DC, pulse, reverse pulse, variable transformer, and two-step color anodize and. In addition, we offer air, water and oil cooled models. American Plating Power offers virtually any control interface including Ethernet, Modbus, and analog. Controls: pots and meters, to PLC controls, or Windows based systems. We also offer spare parts and repair services for all makes and models. Our service department offers repair, calibration and preventive maintenance in our facility or yours.

Ronatec is a unique American owned international business involved in the development, manufacturing, and marketing of a full line of proprietary chemicals for the plating, anodizing, aluminum extrusion, phosphate, powder coat and environmental industries. Our processes include cleaners for all base metals including aqueous and special purpose cleaners; plating processes for electroless nickel, silver, zinc, zinc alloys, copper, nickel, chrome, chrome substitutes, tin, and cadmium; metal treatment products for bright dipping, phosphating and specialty products including chromates, lacquers, rust preventatives; and environmental products for the full range of waste treatment needs. In addition to offering superior technology, Ronatec has a commitment to provide a partnership with the client in solving and servicing the challenges of today's marketplace. Whatever it takes, working together to produce a custom blended product, designing a complete finishing system, or staying through the weekend to solve a tough processing problem, our company and our trained, professional staff are flexible to your needs and respond like no other supplier to solve your finishing or environmental challenges.
